DEATH WISH COFFEE

New flavour. *Same coffee setup.*

Your next order can change what's in the cup—not how you make it. Start with the format, not the flavour name.

THE FIRST DECISION

Give your setup the *first vote.*

Ground, whole bean or single-serve pods: start with the format you already use. Then explore the flavours available within it.

Format narrows the search. Flavour makes it interesting.

COCONUT CARAMEL

One flavour can have *two routes.*

Coconut Caramel appears in both listings. The flavour name is shared; the format still needs your attention.

Coffee

Coconut Caramel Coffee

Pods

Coconut Caramel Single-Serve Pods

READ THE BAG, TOO

Don’t assume every flavour has a pod.

White Chocolate Pistachio is shown here as ground coffee. A flavour that catches your eye still needs a format check.

YOUR NEXT COFFEE

Keep the routine. *Explore the flavour.*

Browse the coffee collection in the format you use at home. Let that shortlist—not just a tempting name—guide your next order.
